Hi Tim

I am preparing a memo explaining the technical aspects and the potential benefits of LICD to the BDCP. That will be used to inform BDCP, and the next step will be to update the mitigation measure CM. I'd like to get your review and input on the memo so that we fully explain this.

No worries, Erin. I'll look for a message from you next week.
Last Monday, I reported to my colleagues that ICF (you) were preparing a "memo" for my review. They took this to mean that you were revising the Conservation Measure #12 (MeHg) to incorporate my comments and recommendations.
Is that accurate?
Could you please explain what you're preparing for my review and what you'll ask me to do?
Thanks, Tim

Tim

So sorry, I haven't gotten to drafting the memo yet, but should have time tomorrow. Hope I didn't disrupt your schedule this week.

Erin

Hi Erin:

I have a conference call from 10:00-11:00; otherwise I'm writing and reviewing materials at my desk.
Please give me 2-3 times that would be good for you and we can speak today.
Meanwhile, I'm attaching the scope of work (SOW) that Tamara, Jacob, and I prepared for ORD-Cincinnati.
I combines and updates materials from the project proposal and powerpoint presentation that I previously sent.
Thanks, Tim

Hi Tim

We've talked to DWR and they are very interested in including your proposal in the BDCP. First thing we'd like to do is write a memo further explaining the approach, description of processes and outcomes, potential benefits (including reduction in flood hazards and reduction in carbon footprint through sequestration), possible adverse effects to the ecosystem (from chemical additives, reduction in DOC, decr turbidity) and research needs.

I'd like to talk to you more about this – can you let me know if you have any time this afternoon or tomorrow?

Thanks,
Erin

Here you go, Erin.

I sent you the powerpoint presentation and the more elaborate proposal we sent to EPA's Office of Research and Development.

Thanks for your interest. Tim

Hi Tim

Thanks for making time to discuss the mercury situation with me this morning. I would appreciate it if you could send me the powerpoint presentation that you mentioned.

Thanks,

Erin
